

# CDBG for Emergency Projects

The Community Development Block Grant Program (CDBG) for emergency projects is a grant program that is available to fund publicly owned infrastructure for community based projects. Funding from this program can be used by municipalities and counties.

## Examples of eligible projects include:

- Drainage systems
- Water and sewer systems

## Program Facts

Municipalities and Counties may apply when an emergency project has occurred. An Emergency Project is one that could normally qualify under the Public Facilities Grant but due to the immediate needs or emergency of the municipality or county it cannot wait for a new funding cycle under the Public Facilities Grant. The Community Development Block Grant Program (Emergency Projects) provides for a **maximum grant amount per project of \$100,000**.
